AUTOMATION ENGINEER

Casagiove (CE), Italy

May 2025 – Current

PLC engineering for industrial automation projects, covering software development, field integration, commissioning, and troubleshooting, with focus on reliability and maintainability.

- Designed, programmed, and commissioned PLC applications on **Siemens S7-1200/1500** using **TIA Portal** (LAD/FBD/SCL), with reusable blocks and consistent naming conventions.
- Supported **testing and commissioning** activities, including I/O checks, functional validation, safety verification, and issue resolution on site.
- Configured simple **HMI panels** for operator commands, status indication, alarms, and basic process monitoring.
- Integrated PLCs into plant networks via **PROFINET**, managing addressing, device naming, and communication with external systems through **OPC UA**, **Modbus TCP**, and **Modbus RTU** over RS-485.
- Supported configuration, commissioning, and basic diagnostics of **Nidec Control Techniques M700** and **Parker AC20/AC30** drives during machine start-up and troubleshooting activities.
- Performed corrective maintenance and minor software improvements, maintaining structured backups and change tracking to support continuity of operations.
- Worked with electrical and mechanical teams, suppliers, and commissioning personnel to align requirements and close technical issues during project execution.

Skills

Productivity

Microsoft Office · Google Workspace

Development Tools

Visual Studio Code · Eclipse · IntelliJ IDEA

Operating Systems & Virtualization

Windows 10/11 · Linux (Ubuntu/Mint) · macOS · VMware Workstation · VirtualBox

Version Control

Git · GitHub

Programming

C · C++ · Java · Python

Scripting & Automation

Bash/Zsh · PowerShell · VBA · Excel Macros

Industrial Automation & Control

PLC Programming (LAD · AWL · SCL) · TIA Portal · STEP 7 · MATLAB · Simulink

Electrical CAD

SPAC Start Impianti · SPAC Automazione

Networking & Industrial Protocols

TCP/IP · VLANs · VPN (OpenVPN) · PROFINET · OPC UA · Modbus TCP-RTU

Robotics & Simulation

ROS · ROS 2 · Dynamixel Protocol 2.0 · RoboDK · RViz · MoveIt!

Documentation & Markup

LaTeX · TikZ · Markdown · Doxygen

Languages

Italian (Native) · English (B2)

Time management

Effective planning of tasks, deadlines, and priorities

Prioritization

Focus on high-impact tasks and workload management

Ownership

End-to-end responsibility for tasks and deliverables

Teamwork

Collaboration with multidisciplinary teams and stakeholders

Problem-solving

Analytical and structured approach to problem resolution

Communication

Clear, concise communication tailored to the technical level

Education

MSc in Computer Engineering – Robotics & Automation | LM-32

UNIVERSITY OF CAMPANIA "LUIGI VANVITELLI"

Aversa (CE), Italy

Sep. 2020 – Nov. 2024

THESIS TITLE: CONTROL STRATEGY FOR GRASP FORCE REGULATION AND SLIPPING AVOIDANCE FOR AN ANTHROPOMORPHIC ROBOTIC HAND

DESCRIPTION: Development of an advanced control system for the RH8D robotic hand, with Dynamixel-based drivers and ROS 2 integration, to improve dexterity and grasping. Tested on various objects and in industrial automation and collaborative robotics scenarios.

GRADE: 106/110

Internship in Computer Engineering – Robotics & Automation

UNIVERSITY OF CAMPANIA "LUIGI VANVITELLI"

Aversa (CE), Italy

Mar. 2024 – Jun. 2024

TITLE: SIMULATION AND CONTROL OF THE SEED ROBOTICS ANTHROPOMORPHIC HAND AND RELATED TACTILE SENSORS IN ROS 2

DESCRIPTION: Simulation and control of the RH8D robotic hand and FTS3 sensors in ROS 2, using the Dynamixel library. Software and documentation are available in the ROS 2 repositories of the Robotics Lab at the University of Campania "Luigi Vanvitelli".

BSc in Electronic and Computer Engineering | L-8

UNIVERSITY OF CAMPANIA "LUIGI VANVITELLI"

Aversa (CE), Italy

Sep. 2011 – Apr. 2020

THESIS TITLE: DESIGN AND IMPLEMENTATION OF A WEB APPLICATION FOR THE COMMON CRITERIA CERTIFICATION PROCESS (ISO/IEC 15408 STANDARD)

DESCRIPTION: Analysis of the ISO/IEC 15408 security standard, with a focus on Security Assurance Requirements (SAR) and Evaluation Assurance Levels (EAL). Development of a web application to catalog certifiable components according to the standard, emphasizing the importance of EAL in determining security levels.

GRADE: 82/110

In accordance with Regulation (EU) 2016/679 (GDPR) and Italian Legislative Decree No. 196/2003, as amended, I authorize the processing of my personal data for recruitment/selection purposes and for the management of the employment relationship.
